PROFESSIONAL SUMMARY

- Frontend Engineer and Team Lead with 8+ years of experience building scalable web applications.
- Strong expertise in React, TypeScript, Redux, and modern frontend architecture.
- Proven experience leading teams, reviewing code, and delivering enterprise-grade solutions.
- Experience contributing to Node.js services and RESTful API integrations.

PROFESSIONAL EXPERIENCE

ACCENTURE (CLIENT – KAISER PERMANENTE) – TEAM LEAD

Noida

Project – GLP1 Web App

Oct 2024- Present

- Owned frontend feature delivery from requirement analysis to production deployment.
- Led development of medication summary and reporting features used by enterprise healthcare users.
- Designed and implemented bulk copy functionality to improve usability and reduce repetitive user actions.
- Defined scalable frontend architecture and enforced code quality standards using ESLint and SonarQube.
- Contributed to sprint planning, estimations, and requirement analysis in an Agile environment.

SKILLS: React • Redux • TypeScript • Axios • SCSS • Cypress • Node.js

ACCENTURE (CLIENT – SUTTER HEALTH) – TEAM LEAD

Noida

Project – Mediconnect

Jan 2024- Sep 2024

- Led frontend delivery for key modules, ensuring scalable and reusable component architecture.
- Developed new application features with a focus on clean architecture and scalable UI components.
- Improved overall code quality by integrating Sonar analysis and unit testing practices.
- Ensured consistent UI/UX by standardizing styling patterns across the application.

SKILLS: React • Redux • TypeScript • Axios • SCSS • Jest • PWA

INFOSYS (CLIENT – EY) – TECHNOLOGY ANALYST

Pune

Project – VIA

June 2022- Jan 2024

- Implemented configurable dark theming for the application and improved stability using Redux best practices while contributing to backend integrations using Node.js.
- Implemented and delivered critical bug fixes and enhancements. Also assisted with post-production activities by utilizing SonarQube's code quality reports.
- Integrated Kendo UI components in the application and did module enhancements with third-party libraries.
- Conducted code reviews and mentored team members on React component design and UI standards.
- Contributed to sprint planning and requirement analysis in an Agile environment.

SKILLS: React • Redux • ES6 • JavaScript • Axios • CSS • SCSS • Kendo • Jest

EVINCE DEVELOPMENT – SR. FRONT END DEVELOPER

Ahmedabad

-MULTIPLE PROJECTS

Jan 2018- May 2022

- Created multiple websites in WordPress, Shopify and Magento frameworks with PWA compatibility.
- Gave practical hands-on training and seminars on HTML templates for trainees and colleagues.

- Integrated HTML templates into WordPress and Magento and built responsive UI templates for React and Angular applications.
- Played an active role in analyzing requirements, making estimations, and finalizing them.

SKILLS: HTML • CSS • JavaScript • React • jQuery • SCSS • LESS • Bootstrap • PSD to HTML • PSD to WordPress • PSD to Magento

GRADUATE ENGINEER TRAINEE

June 2017 – Dec 2017

During this period, I received training on creating design mockups and converting them into HTML templates.

TECHNICAL SKILLS

FRONTEND: React, Redux, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

BACKEND: Node.js, Express.js

TESTING: Jest, Cypress

TOOLS: Git, Azure DevOps, VS Code, SonarQube

CLOUD & CI/CD: AWS (Basic), CI/CD Pipelines

EDUCATION

HARYANA ENGINEERING COLLEGE -KURUKSHETRA UNIVERSITY

Yamuna Nagar, Haryana

Bachelor of Technology in Computer Science With 70%

2013-2017
